JOHN WILLIAMS (*Composer*) In a career spanning more than six decades, John Williams has become one of America's most accomplished and successful composers for film and the concert stage. He remains one of our nation's most distinguished and contributive musical voices. He has composed the music for more than one hundred films, including all nine *Star Wars* films, the first three *Harry Potter* films, *Schindler's List*, *E.T. the Extra-Terrestrial*, *Jaws*, *Jurassic Park*, *Saving Private Ryan*, *Lincoln*, *Close Encounters of the Third Kind*, *Superman* and the *Indiana Jones* films. He served as music director of the Boston Pops Orchestra for fourteen seasons and remains their Laureate Conductor. He has

composed numerous works for the concert stage including two symphonies and more than a dozen concertos commissioned by some of America's most prominent orchestras. He has received five Academy Awards and fifty-four Oscar nominations, seven British Academy Awards, twenty-five Grammys, four Golden Globes, and five Emmys. His other honors include the Kennedy Center Honors, the National Medal of Arts, an honorary KBE from Queen Elizabeth II, the Life Achievement Award from the American Film Institute, Spain's Princess of Asturias Award for the Arts, and the Gold Medal from the UK's prestigious Royal Philharmonic Society.

A NOTE FROM THE COMPOSER: In his highly successful book, *Jurassic Park*, author Michael Crichton enabled us to imagine what the return of the great vertebrates of 150 million years ago might be like. In his thrilling 1993 film adaptation, Steven Spielberg brought these fascinating and terrifying creatures to life, and in so doing captivated movie audiences around the world.

I must say that I greatly enjoyed the challenge of trying to tell the film's story musically. And while we can luxuriate this evening in the magnificent sound produced by the Waterbury Symphony Orchestra as they perform the entire score live to the picture, it's nevertheless tempting to imagine what the trumpeting of these great beasts of the distant past might have been like...

I know I speak for everyone connected with the making of *Jurassic Park* in saying that we're greatly honored by this event... and I hope that tonight's audience will have some measure of the joy we experienced while making the film more than twenty years ago.
